

The diagram illustrates the dimensions for a business card. It features three nested rectangles: an innermost purple rectangle representing the 'Finish Size', a middle black rectangle representing the '2mm Bleed' area, and an outermost red rectangle representing the total dimensions including the bleed. The text 'Business Card 90 X 55mm + 2mm Bleed' is centered within the black rectangle. The labels '2mm Bleed' and 'Finish Size' are positioned at the top and bottom of the red rectangle, respectively. Vertical and horizontal lines extend from the corners of the red rectangle to the edges of the page, indicating the alignment and bleed area.
